

Introduction of the Department

Bartın University,
Chair of Forest Industry Engineering Department, 74100, Bartın
Prof. Dr. Bülent KAYGIN, E-mail: bkaygin@bartin.edu.tr

The Contents

1

- Forest Industry Engineering (FIE) and Workspaces

2

- Why should you choose Bartın University Forest Industry Engineering?

3

- The future and opportunities of Forest Industry Engineering

4

- Council of Higher Education exam and Forest Industry Engineering data

Forest Industry Engineering (FIE)

- Forest Industry Engineers are able to design and draw wood products, can work especially in production and planning in forest products sector.
- Be able to prepare feasibility report in fields related to forest products
- Be able to involve in the establishment and operation of factories and workshops, standardization of processed forest products, quality control and marketing.

O

- Internship training opportunities abroad,
- *Large enterprises (more than 5000 products obtained from wood),*

O

- Can work as an engineer in associations with signature authority,

O

- Occupation whose rights are protected by Union of Chamber of Turkish Engineers and Architects (TMMOB),

O

- Opportunity to work in the academic field,
- Opportunity for a second diploma with a double major,

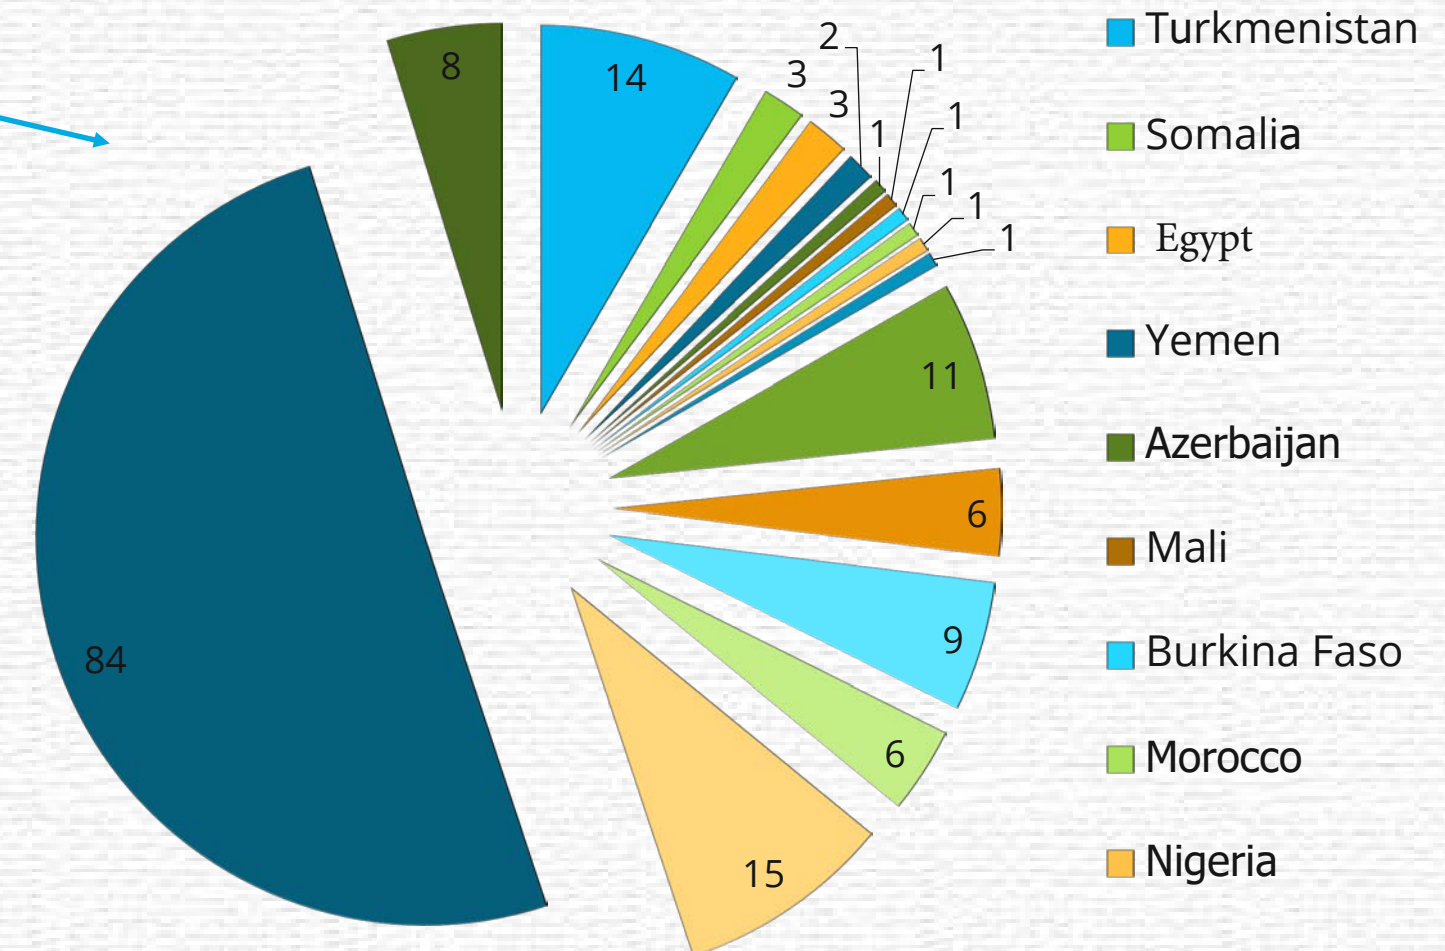

2. Departments Where Diploma Can Be Obtained.

	Departments
Forest Industry Engineering	Forest Engineering (Undergraduate)
	Molecular Biology and Genetic (Undergraduate)
	Economy (Undergraduate)
	Business (Undergraduate)
	Political Science and Public Administration (Undergraduate)
	Management Information Systems (Undergraduate)

Internationalization of Our Department

We have students from **11**
different countries of the world.

Student Satisfaction Level by Units

2019

Birim	N	Ortalama	Memnuniyet %
Orman Fakültesi	68	3,51	70,30
Edebiyat Fakültesi	655	3,21	64,24
Eğitim Fakültesi	587	3,34	66,85
Fen Fakültesi	177	3,35	67,00
İktisadi İdari Bilimler Fakültesi	649	3,22	64,46

Ulus MYO	119	4,15	82,92
Genel Memnuniyet	7942	3,76	75,22

Our faculty satisfaction has increased by **15%** compared to 2019.

It is seen that **the highest student satisfaction** on the basis of faculty belongs to the **Faculty of Forestry**.

Job Opportunities

What are the job opportunities of a Forest Industry Engineer?

- 1 Furniture and interior design offices
- 2 In the design of earthquake resistant structures
- 3 In the engineering staff in forest operations
- 4 Wooden yacht design and construction Urban
- 5 Furniture production

Job Opportunities

Thousands of businesses doing all kinds of lumber, veneer and lamination processes

Timber and veneer factories

Non-wood forest products

Cosmetic, perfume, medicine, food, cleaning industries

Another sector in which our country has a say in the world

Fiberboard factories

Particleboard factories

One of the sectors in which our country has a say in the world

Designing and producing natural and environmentally friendly green buildings as a new trend

Facilities producing wooden houses and building elements

Other woodworking factories

Pencils, matches, traverse, wooden poles, impregnation factories etc.

Job Opportunities

Paper and cardboard factories

It is a universal sector that has gained importance in recent years and where new investments are made.

Ability to work as self-employed

By establishing a company, feasibility, investment and consultancy transactions are carried out and signature authority is used.

International marketing of wood-based products

In particular, international marketing in the furniture and board industry

Wooden toy/gift production and online sales

Souvenir industry and marketing

Career/Academics

Continuing career in education to learn and produce.

Common Job Opportunities

Board industry

Wood protection

Wood design and construction

Interior design

Wood based boards: Processing wood without changing its structure or changing it by physical and chemical means by processes such as pressing, steaming, drying and impregnation by chipping or splitting into fibers and using or not using adhesives.

Where do our graduates work?

Board Industry

Furniture Industry

Interior Design

Wooden Structures

Paper Industry

Wooden Yacht Production

In the Field of Education

Public institutions

Why Bartın University Department of Forest Industry Engineering ?

Strong
Academic Staff

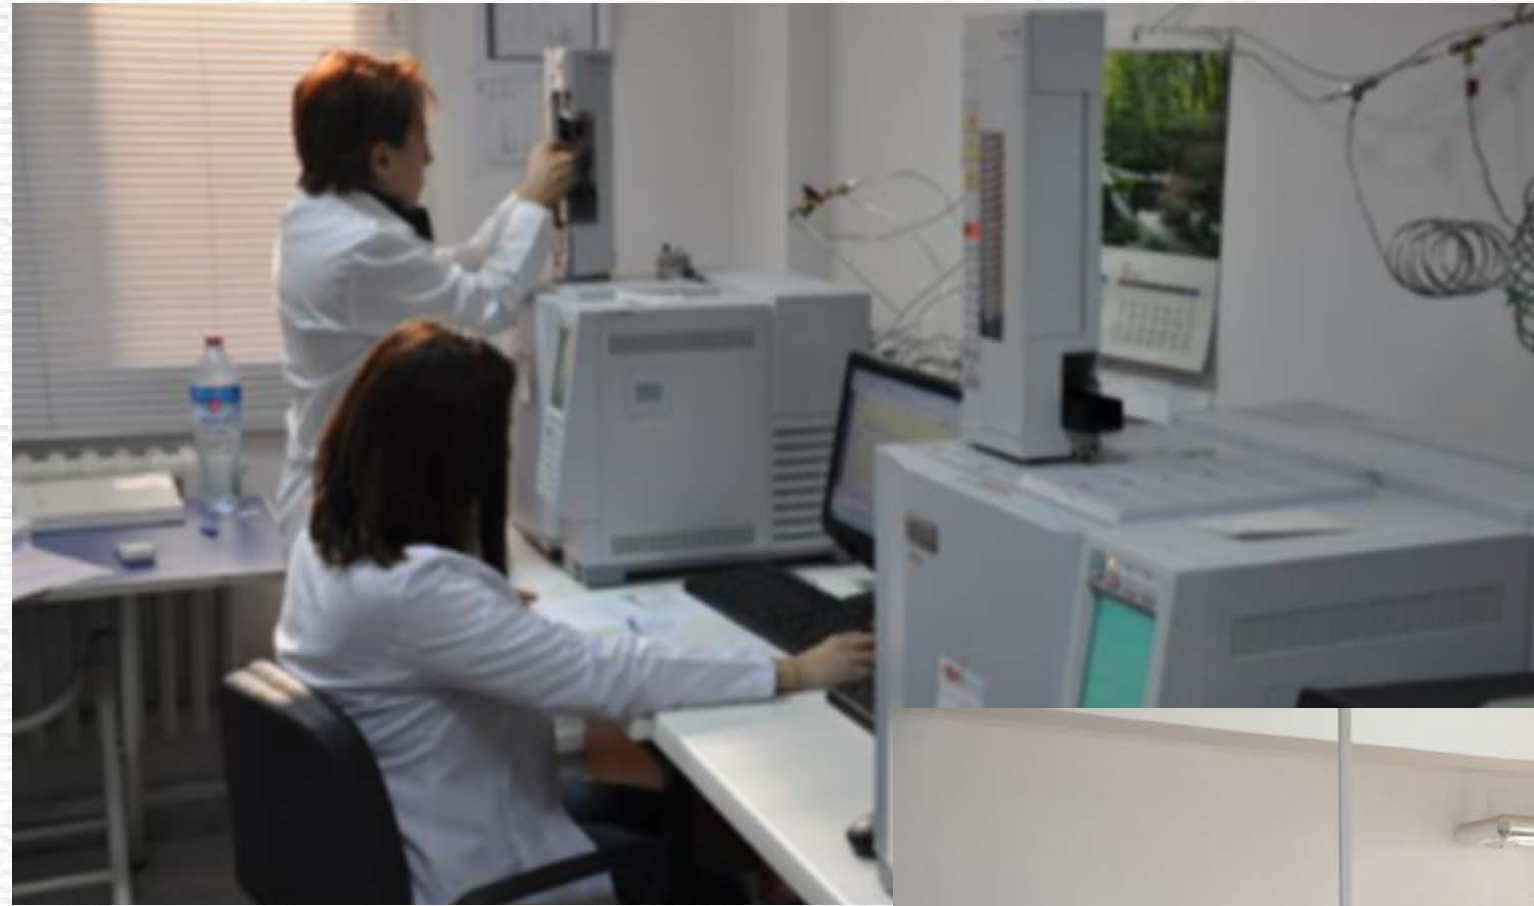

Laboratory and
Infrastructure
Facilities

International
Efficiency

Forest Industry Engineering Undergraduate Program; A total of 18 academic staff, including 6 Professors, 6 Associate Professors, 1 Assistant Professor, 1 Instructor Dr. and 4 Research Assistants

Forest Products Chemistry Laboratory

Wood Biology and Conservation Laboratory

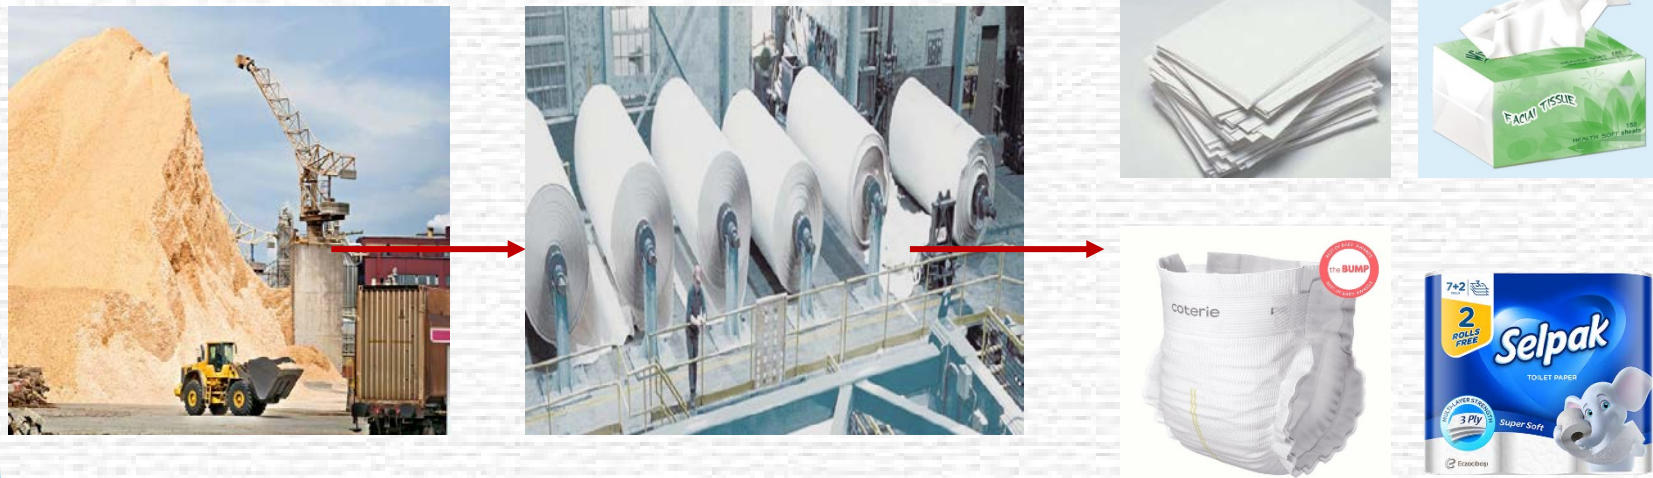

Wood Mechanics and Technology Laboratory

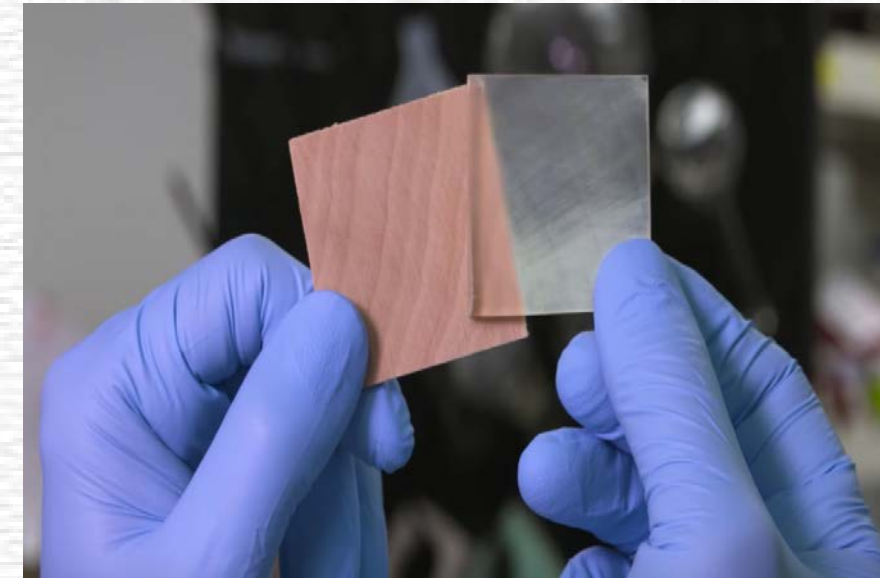

Computer Laboratory

Studies in the Department

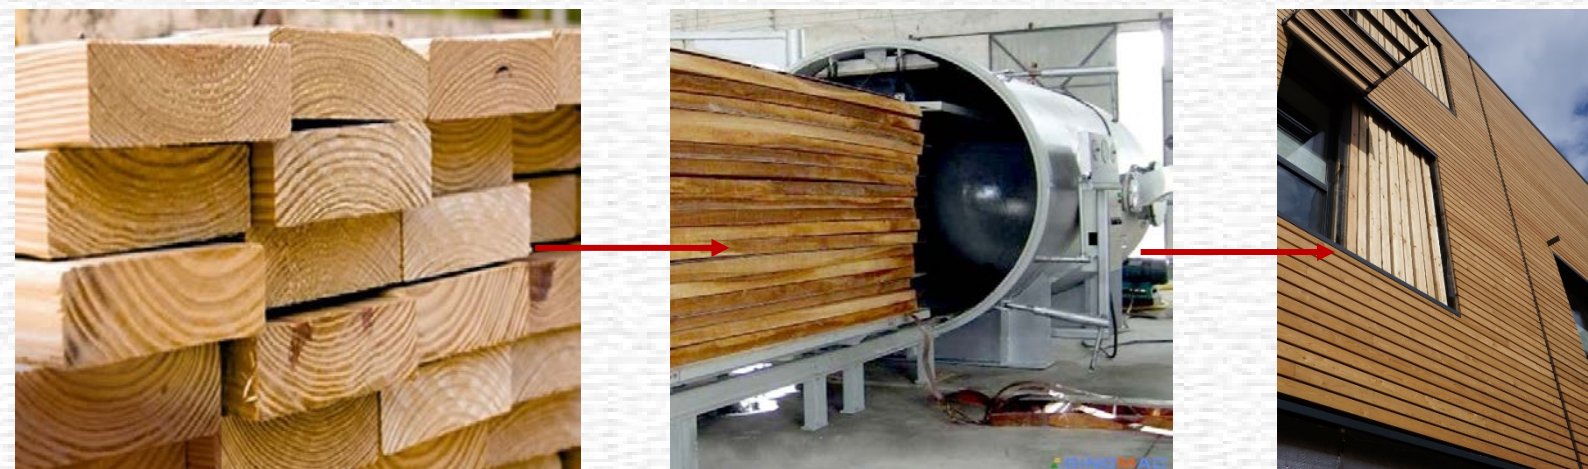

Wood-Solid Wood-Cellulose-Paper Products

Transparent Wood (Increased Light Transmittance)

Wood Composites

To increase the service life of the wood material in the outdoor environment.

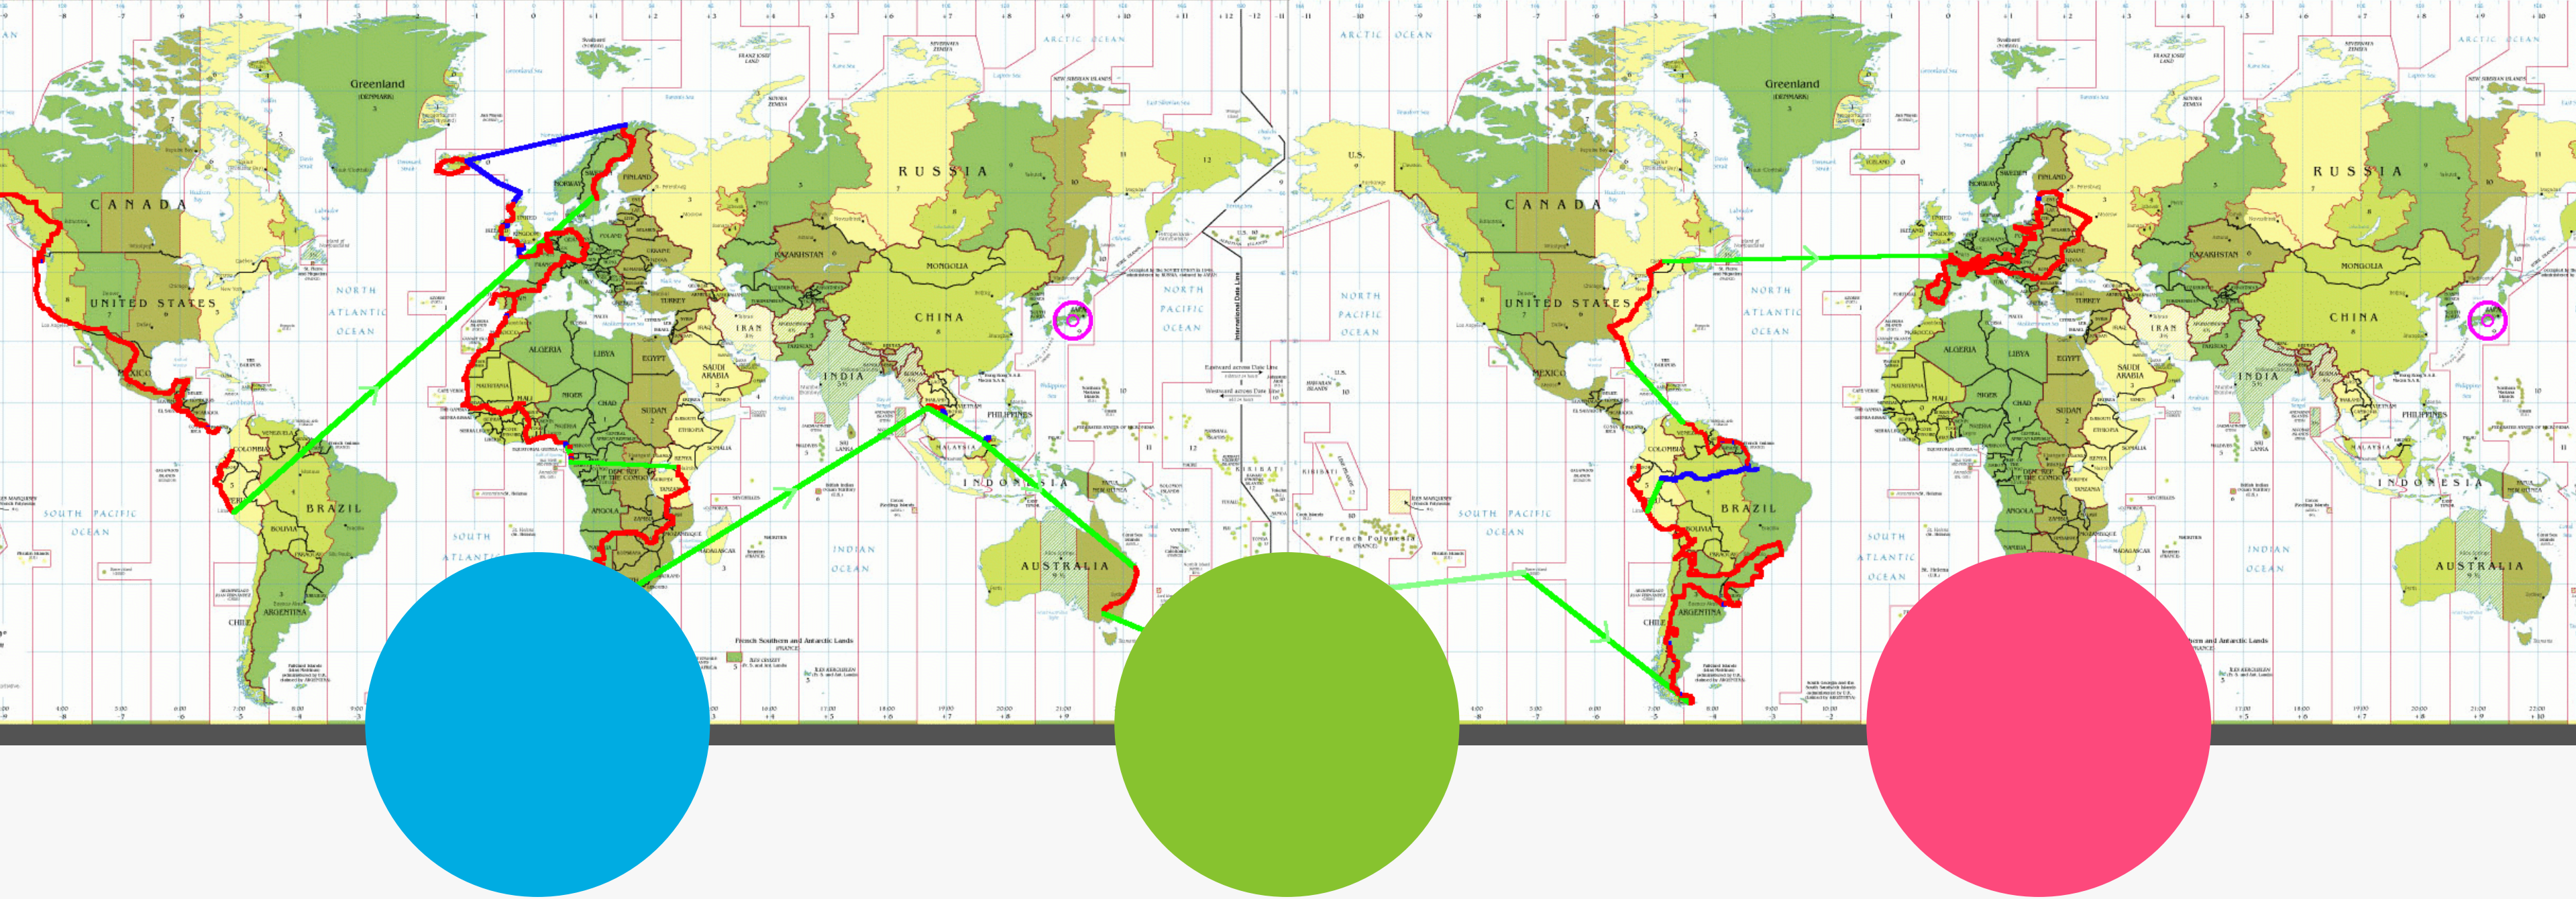

Industrial Management and Investment Planning

Polymer Based Engineering Composites

International education, training and internship opportunities

Erasmus Learning Mobility

It is to carry out one or two semesters of education in a contracted higher education institution in a European Union member country in an academic year.

Erasmus Internship Mobility

Internship opportunity to prepare for business life in the relevant enterprises/institutions without seeking an agreement in the European Union Program Countries and internship activity to learn the job opportunities and economy of the country of destination.

Farabi Exchange Program

It is a student and academic member exchange program between higher education councils providing education at associate, undergraduate, graduate and doctoral levels.

The Countries and universities that we have agreements with for the Erasmus program

Chzeczia, Poland

Germany-Slovenia

Romania-Greece

Protugal-Finland

Italy, Northern
Macedonia

Universities That Can Be Visited Within The Scope of Erasmus

Department	University	Country	Agreement Term(Year)
Forest Industry Engineering	Poznan University of Lfe Sciences	Poland	2015-2021
Forest Industry Engineering	Eberswalde University	Germany	2015-2021
Forest Industry Engineering	Mendel University in Brno	Czech Republic	2014-2021
Forest Industry Engineering	Transilvania University of Brasov	Romania	2016-2021
Forest Industry Engineering	University of Primorska	Slovenia	2014-2021
Forest Industry Engineering	Technological Edutional Institute (TEI) of Thessaly	Greece	2015-2021

Technical trips and fair organizations

Practice-oriented trainings

Technical trips

Technical trips to companies of great importance in the field of Forest Industry within the scope of the course.

International fairs

Participation in fairs organized in the field of Forest Industry.

The Place of Our Faculty in Forestry Faculties

Select	Field: Organizations-Enhanced	Record Count	% of 4,574	Bar Chart
<input type="checkbox"/>	ISTANBUL UNIVERSITY	798	17.446 %	<div></div>
<input type="checkbox"/>	KARADENIZ TECHNICAL UNIVERSITY	768	16.791 %	<div></div>
<input type="checkbox"/>	BARTIN UNIVERSITY	414	9.051 %	<div></div>
<input type="checkbox"/>	SULEYMAN DEMIREL UNIVERSITY	400	8.745 %	<div></div>

<input type="checkbox"/>	ARTVIN CORUH UNIVERSITY	271	5.925 %	<div></div>
<input type="checkbox"/>	CANKIRI KARATEKIN UNIVERSITY	194	4.241 %	<div></div>

**Our faculty is the
third most successful
Faculty of Forestry in
Turkey.**

The Opportunities

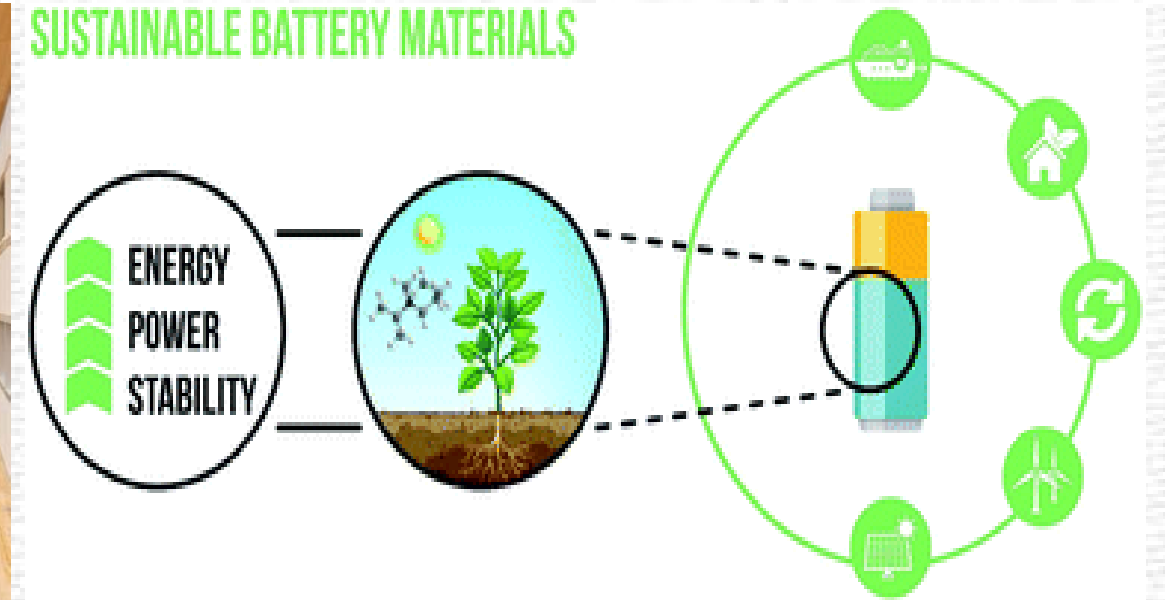

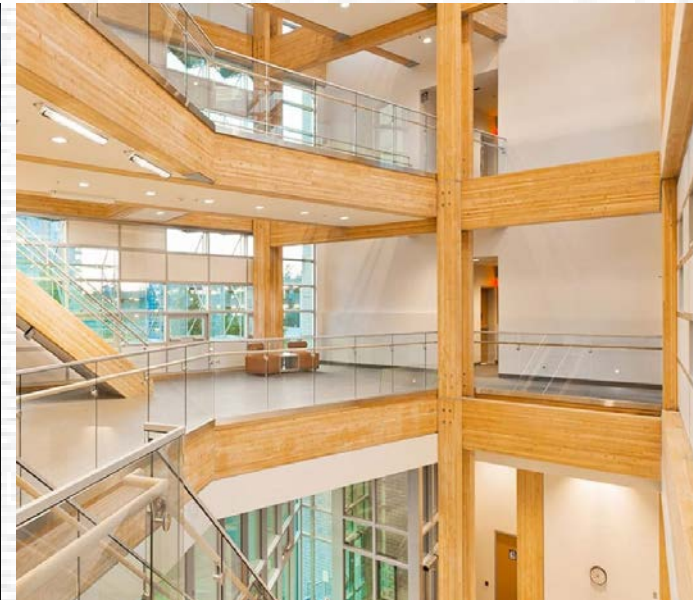

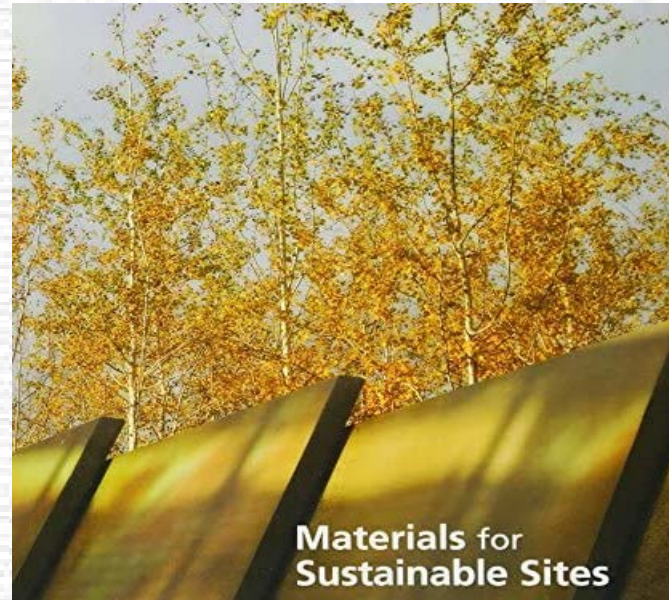

YÖK Destek
Bursları

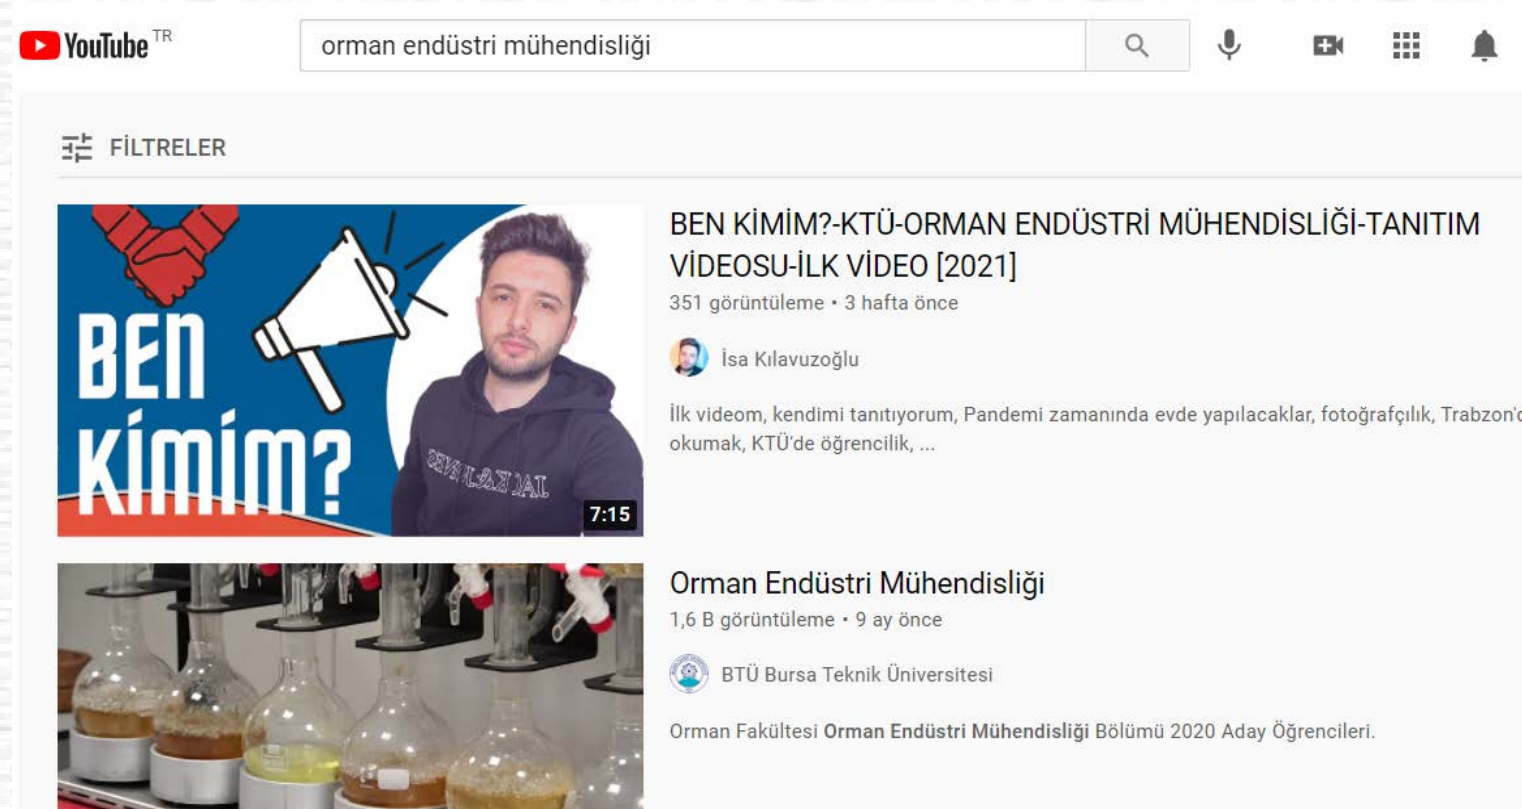

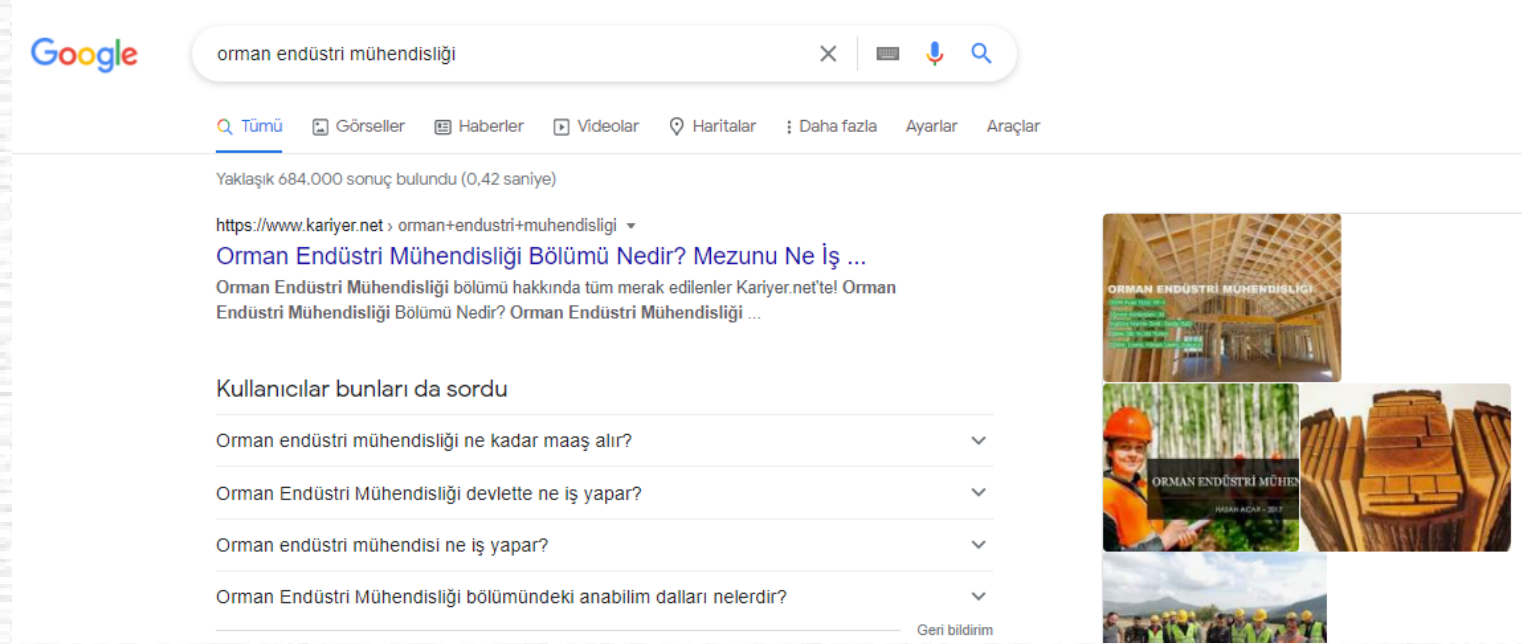

Experienced academic staff of Bartın Forestry Industry Engineering, both nationally and internationally, will support our students to expand their vision and increase their international experience.

Within the scope of Higher Education Council Scholarship, for the 2020-2021 academic year, the candidates who are placed in the first three places in our Department will be able to benefit from a monthly scholarship of 850 TL for 12 months.
