

Bartın University Education and Teaching Policy Document

Starting from the fundamental policy of nurturing qualified individuals with a student-centered approach contributing to society, science, art, and culture at a universal level, who are lifelong learners, possess self-confidence and a sense of responsibility, and with a continuous improvement mindset;

- Creating and updating teaching programs compatible with 21st-century skills aimed at fostering entrepreneurial and innovative individuals,
- Providing students with various educational opportunities through interdisciplinary approaches (such as double major, minor, exchange programs, etc.),
- Conducting student admissions through defined mechanisms,
- Implementing practices that incorporate active learning-teaching strategies and methods with a researcher and critical understanding, taking into account 21st-century learning skills,
- Determining the level of achievement, competence, and learning outcomes of programs using multiple assessment and evaluation methods,
- Supporting applied educational activities within the scope of inter-sectoral cooperation,
- Continuously improving the educational and teaching competencies of faculty members,
- Strengthening the guidance and counseling system provided to students,
- Regularly monitoring and supporting the employment and career development of graduates through continuous communication and collaboration with them,
- Having suitable resources and infrastructure to conduct educational and teaching activities,
- Ensuring that learning opportunities are accessible, fair, adequate, and barrier-free for all students,
- Developing cultural diversity, intercultural interaction, and tolerant environments on campuses; making possible a higher education experience where disadvantaged groups are supported to the fullest extent and inclusivity is a core value; increasing the cultural awareness of students and staff to enable active participation in local and international communities and decision-making processes,

It adopts the "EDUCATION TEACHING QUALITY POLICY."
