

## **Bartın University Social Contribution Policy Document**

In line with its strategic objectives and goals, Bartın University aims to:

- Contribute to science, art, and culture at the local, national, and global levels through defined mechanisms with a sense of social responsibility,
- Nurture qualified human resources that contribute to societal development,
- Enrich local, regional, and national socio-cultural life through scientific and social activities,
- Contribute to societal development through lifelong learning activities,
- Conduct research and practices focusing on regional and societal needs in collaboration with public, private sector, and civil society organizations,
- Ensure that the academic and administrative staff, as well as students, internalize a sense of social responsibility,
- Integrate community service, volunteerism, and social responsibility activities into education and teaching as an integral part,
- Conduct research and practices contributing to the formation of environmental awareness for sustainable society and environment,
- Support, implement, and continuously improve activities contributing to society,

It adopts the "SOCIAL CONTRIBUTION QUALITY POLICY."
