

## **Bartın University Internationalization Policy Document**

Bartın University has adopted the mission of nurturing qualified individuals with a student-centered approach and contributing to scientific, social, and cultural life at the national and international levels with a sense of social responsibility. In line with this mission, our university aims to develop and offer international level practices and research for solutions to scientific and social issues, and to become a preferred higher education institution internationally through its quality education. In this context, the university aims to achieve its internationalization goals by:

- Designing the scope and content of educational programs in line with national and international developments,
- Ensuring the participation of students and staff in academic visits for international mobility and enabling them to gain new knowledge and experience,
- Making the university a center of attraction for international student and staff mobility by maximizing the use of national and institutional resources,
- Collaborating on joint projects and scientific research with higher education institutions with high international recognition and scientific capacity, taking into account geographical and field diversity,

It adopts the "INTERNATIONALIZATION QUALITY POLICY."
