Görev Tanımı: To maintain communication between Bartın University Faculty of Health Sciences Department of Nursing and its graduates, to monitor graduates' employment and professional development status, to support the career planning of current students and graduates in the field of nursing, and to evaluate graduate feedback in a way that contributes to the improvement of the educational program.

Duties, Authorities and Responsibilities:

Encourages graduates to register with the university's graduate information system and update their information; collaborates with relevant units to utilize this system in the department's graduate tracking activities.

Identifies the career expectations of graduates and continuing students, the nursing fields they are interested in, and their information needs regarding career planning.

In line with the identified needs, supports the participation of students and graduates in existing informational activities related to clinical nursing, graduate education, academic careers, and various professional work areas.

Verifies job, graduate education, and professional development announcements related to the field of nursing and shares them with students and graduates through the department's appropriate communication channels.

Communicates with the Career Planning and Application Research Center and university units related to alumni; supports current students and graduates in benefiting from career activities and counseling services.

Submits reports on its activities to the Department Head.
