Job Description

To conduct risk assessments of classrooms, laboratories, and academic and administrative offices within the Faculty of Health Sciences at Bartın University; to record actual and potential risks encountered during clinical practice; and to implement measures to prevent their recurrence.

Duties, Authorities and Responsibilities

- Identifies hazards threatening the health and safety of students and staff in the faculty building, classrooms, laboratories, and clinical practice areas.
- Conducts risk assessments, including risk identification, definition, and analysis, for educational environments.
- Determines the causes of identified risk events.
- Develops and ensures implementation of preventive and corrective procedures to eliminate identified risks.
- Establishes laboratory use and practice procedures and ensures compliance by students and academic staff.
- Organizes training on risks that may be encountered in classrooms, laboratories, clinical, and field practice areas.
- Analyzes reported risk events, develops solutions, and reports them to the Dean's Office.
- Submits reports, recommendations, requests, and needs to the Dean's Office.
- Prepares and submits a semester activity report to the Dean's Office.
