Technical Specifications

1. Organs located in the thoracic cavity can be examined separately.
2. The thoracic cavity has been colored in different colors so that the lung lobes can be indicated separately at their original size.
3. Upper structures remaining in the abdominal region are examined.
4. Inside the ribcage, the way the arrangement of internal organs is preserved is depicted.
5. It consists of a total of 17 parts.
6. Made from durable plastic material and mounted on a base for display.
