

Information on Devices Located in the Laboratory			
Device Specifications		Device Supervisor	
Brand / Model	Adult Basic Life Support Training Manikin with Feedback (NASCO)	Name Surname	Asst. Prof. Necmiye ÇÖMLEKÇİ Res. Asst.Meryem YÜCEL
Fixed Asset Registration Number	255.8.2/20/4162	Phone	0 378 501 10 00
Device Status / Quantity	1 piece	E-Mail	ncomlekci@bartin.edu.tr meryemyucel@bartin.edu.tr
Laboratory Where It Is Located	First Aid Laboratory

Technical Specifications:

- The manikin has a lower body made of special high-quality plastic, is designed as an adult half-body, and has realistic skin texture on the chest and face.
- The manikin is structured and featured to help improve CPR training quality, classroom teaching efficiency, and students' self-development.
- During artificial respiration on the manikin, chest rise can be observed.
- For quality CPR on the manikin, nose pinching, head tilt, chin lift, and jaw thrust can be performed.
- Anatomically correct oral and nasal passages can be made on the manikin.
- It can be seen and heard that compressions are being performed correctly.
- There is a built-in clicker at the correct compression depth; it signals only with a CLICK sound at the correct pressure. It can be used on/off as needed.
- The manikin has a small and portable CPR skills measurement, evaluation, and feedback device, and with this device; Real-Time Feedback: Compression Depth, Compression ratio, Ventilation volume, Compression and Ventilation counter; Summary Feedback: Compression score%, Ventilation score%, CPR duration mm.ss., Flow rate is given in %.
- The manikin also, thanks to its Bluetooth feature, allows CPR performance evaluation by installing free software on any phone or tablet PC.
- Thanks to this feature, values such as compression rate, compression depth, and ventilation volume during CPR can be observed instantly and live, and can be projected onto a projector or TV so that everyone in the classroom can see them and create a CPR competition environment, making the training realistic.
- Along with the manikin, there is an upper tracksuit, 1 spare lung, 1 spare face skin, 10 cleaning wipes, 1 CPR measurement and evaluation device, extension cable, original user manual, and a soft carrying bag that can also be used as a training mat.
- The manikin has a patented design.
