

**Mission:** With a student-centered educational approach, our mission is to educate qualified professionals equipped with the knowledge, skills, and capabilities needed by businesses and public institutions. These professionals should be able to develop innovative solutions to problems based on universal values and possess entrepreneurial qualities.

**Vision:** In the constantly changing conditions of today, our vision is to be a preferred educational institution that can best meet the evolving expectations of its internal and external stakeholders with its pioneering position.

**Core Values Section:** Our department carries the fundamental values of our university and vocational school. These core values are as follows:

- Respect for human beings and nature,
- Fairness,
- Tolerance,
- Commitment to ethical values,
- Participation,
- Transparency,
- Accountability,
- Entrepreneurship,
- Innovation,
- Social responsibility.
