

Bartın University Internationalisation Policy Paper

Bartın University has adopted the mission of educating qualified individuals with a student-centred approach and contributing to scientific, social, and cultural life at national and international levels with the awareness of social responsibility. In this direction, our university aims to develop applications and research at the international level to solve scientific and social problems and to become an internationally preferred higher education institution through the qualified education it offers. In this context, the university is in line with achieving its internationalisation goals;

- To design the scope and content of the teaching programmes in line with national and international developments,**
- To ensure that students and staff participate in international mobility visits for academic purposes and gain new knowledge and experience,**
- To make the university a centre of attraction in terms of international student and staff mobility by making maximum use of national and institutional opportunities,**
- Carrying out joint projects and scientific research with higher education institutions with a high level of international recognition and scientific capacity, considering geographical and field diversity,**

It adopts "INTERNATIONALISATION QUALITY POLICY".
